

# Redwork Seasons

by Paula Stoddard

## Snowman Block

- ★ Cut background larger than 4-1/2" square (big enough to fit in your embroidery hoop). After stitching, trim to 4-1/2" square.
- ★ Before stitching, place another square of background behind your traced background, as it will help hide the threads on the back. (optional)
- ★ Place pattern above and background square right side up on a light box or a window. Using a very sharp pencil, water soluble pen, or a very fine red pigma pen, trace the design.
- ★ Using 2 strands of DMC #304 red, stem stitch all the shapes. Make french knots for the snowman's eyes and mouth.
